June 6, 2011

VIA FACSIMILE 314-652-3112 & U.S. MAIL

Mr. Anthony E. Rothert
Legal Director
American Civil Liberties Union of Eastern Missouri
454 Whittier Street
St. Louis, MO 63108

Re: Camdenton R-III School District

Dear Mr. Rothert:

This letter is in response to your May 31, 2011, correspondence regarding the Camdenton R-III School District's internet filtering system. I am an attorney working with Thomas A. Mickes on this matter on behalf of the District.

In order to comply with the Children's Internet Protection Act, Board Policy, and for the well-being of our students, the District will not deactivate the "sexuality" filter from the District's network. However, the District will allow student and employee access to the GSA Network, GLSEN, Day of Silence, and the Trevor Project websites per your request.

In your correspondence, you assert that you suspect that the District's "sexuality" filter "targets all LGBT-related content". This allegation is false. Indeed, a recent search by District administration revealed several websites accessible through the District system which discuss and promote LGBT rights and resources. Further, the "sexuality" filter is not targeted, nor intended, to block LGBT related content, but designed to block sexually explicit content of any nature which may be inappropriate for our students.

In your May 31, 2011, correspondence you request certain information and indicate that you are making the request pursuant to Missouri's Sunshine law. However, the Sunshine law provides for the disclosure of District documentation and does not require the District to create documents that are not in its possession. Nevertheless, please find the District's response to your requests below:

1. In clarification of our May 26, 2011, correspondence to you, after further review, it appears that the District utilized the URL Blacklist filtering system as a base for devising a custom filtering system for the District. However, the District's Network Administrator has customized a filtering system to meet the needs of the District.

00006343.1

June 6, 2011

Page 2

2. The District's Network Administrator customized and maintains the District's filtering system based upon the automated download service from <http://urlblacklist.com>.
3. The District does not have a document containing the definitions for each filter category in its database. However as a reference, see <http://urlblacklist.com/?sec=download>.
4. See enclosed documentation. However, please note the list of "explicitly allowed" sites the District previously provided in its May 19, 2011, letter to Michael K. Hill, override the sites & URL's contained in these files.

In conclusion, while the District will allow access to educational LGBT websites, the District will not remove the "sexuality" filter as removal of this filter would allow access to sexually explicit websites that are potentially harmful to our students. The District remains committed to providing equal access and opportunity to all of its students and will continue to comply with federal law requiring the protection of children from harmful material on the Internet.

Sincerely,

Betsey A. Helfrich

cc: Timothy Hadfield, District Superintendent
Thomas A. Mickes, Esq.
